THE "COURSE OF TRUE LOVE-"

"The course of true love never runs smooth," said the poet, some decades ago, and that goes for today just as well. If we could take our love affairs lightly it would be well, and that is equally true of most of our woes. And then there would be represented for gold there would be no need for columns such as this.

"Dear Mrs. Lee: I have been engaged to a boy several months. He pretends to be true to me, but lately he has been with another girl, that he was once engaged to, several times. I have heard of him going with another girl that he has not told me about, and that he has been putting his arms around her. I can't bear the thought of this. Is it jealously in me? Do you think if he loved me he would want to go with other girls? He is with me more than he is with any other girl. He doesn't want me to go with other boys. What must I

"Dear Mrs. Lee: I have been going with a fine young man almost 21, and I am 17. Do you think him too old for me? When a young man gives

you a valentine, do you think it proper for a girl to give him one, or would it be proper to let it go? "My dear Mrs. Lee: I am 21, and very much in love with a boy two years younger than myself. I am inclined to think he likes me. I have never shown any signs of being in love with him. This is not a case of infatuation, but a real case of 'love.' I have liked this boy for two years. I hold a responsible office position and come in contact with many, I presume, just as nice, but somehow I cannot change my mind. Please give me your advice, as all my

 Onc_{Θ} upon a time these spring exhibition games used to mean a chattering cash register and an ambitious bank balance when the big league clubs came home.

But this year the denizens of the tall grass seemed to have turned Scotch. They now realize that an exhibition game betwen two squads of rookies as a sporting exhibition means less than nothing, which isn't much.

The Jaspers who got a jolt out of being in the same ball park with Babe Ruth now realize they can see him in a news reel at the Little Gem for 25 cents and have a heavy sex drama thrown in to boot

It doesn't take a post grad course at Harvard to convince the citizenry that a slashing home run during spring training isn't one tenth as potent as a scratch single in the world series.

The moral of all this is that you can't make a man believe he's had a full meal by showing him the picture of a piece of pie.

In a second City League match the same evening, the Red Wing Co. profited by the triple defeat handed the Browns, regaining second place by winning two out of three games from the Chrysler Motors. Bice, member of the Chrysler team, was high man of this match with 623, five pins below the league record. sweeping through teh ranks of our leading baseball magnates. When a baseball magnate has the heebeejeebies it means but one thingthe mazuma (or cush as it is known in our block) isn't rolling in as it should.

Once upon a time these spring exhibition games used to mean a chattering cash register and an ambitious bank balance when the big league clubs came home.

But this year the denizens of the tall grass seemed to have turned Scotch. They now realize that an exhibition game between two squads of rookies as a sporting exhibition means less than nothing, which isn't much.

The Jaspers who got a jolt out of being in the same ball park with Babe Ruth now realize they can see him in a news reel at the Little Gem for 25 cents and have a heavy sex drama thrown in to boot.

It doesn't take a post grad course at Harvard to convince the citizenry that a slashing home run during spring training isn't one tenth as potent as a scratch single in the world series.

The moral of all this is that you can't make a man believe he's had a full meal by showing him the

What does it give for what it gets? The church is the fountain-spring from which have come the Christian home, the free state, the free school, the Red Cross, the Y. M. C. A., the Y. W. C. Lynda Fenton, daughter of John Fenton, a periodical drunkard, has just obtained her first job as a typist In the office of Armitage & Son. Her father continually harps upon Lynda's mother, how she ran away with a man who had more money than he, and insists every woman has her price.

Lynda's one friend and companion is David Kenmore, who has also known poverty. Ralph Armitage has already

"spotted" Lynda, and the second day in the office she becomes acquainted with Emily Andrews, who cultivates her in order to know David better, as she cherishes a secret fondness for him. In the girls' rest room Emily gives what she terms the "low down on the new stenog." Claire Stanhope champions Lynda. After work that evening Emily intro-duces Lynda to the "bunch." She is made to feel uncomfortable. Later the meets David. He takes her to a restaurant, and loans her money, and wonders why he's never kissed her. Lynda gives David her note
